Aerial Cinematography Service

Mike Wood sRPAS pilot
 Stephen Patterson visual observer
 Carolynne Fujda visual observer
 Gord Stewart visual observer
 Georgia Hirtle visual observer

Basic rate: \$150/hour +hst
 Pay on the day

This rate is charged for time on location with pilot, v/o, and access to DJI Mavic Pro. Included in this price is the immediate release of the raw video clips and photographs; hard copies can be downloaded at the end of the appointment. As an intellectual property, you will own the footage outright at the point of sale.

Voyage of Discovery package: \$469 +hst
 Pay on the day

Recommended is early morning or in the hours before dusk, we'll take our time and fly as long as it takes to see your property or worksite from near and far and a multitude of angles with a flare for scenic drama. You will have access to the raw clips on the same day we fly with all rights released to you. A basic montage of the footage is produced in presentation format and delivered in about a week, you pick the music!

Advanced Operations package: \$600 +hst

This package is good for editors and for those looking to capture specific aerial shots. Included here are two separate location appointments as well as a pre-flight production meeting to discuss your requirements and make a plan. Also included are low-resolution proxy files and a basic montage of your video assets in presentation format.

A Year in the Life package: \$1500 +hst

See your land or project from a new perspective in each season of the year. This package includes pre/post-production meetings, four flying appointments, ownership of the media, and a presentation montage featuring the very best of the year's footage.
